

Helping families build great habits — one chore at a time.

ABOUT ZUPPY

Zuppy is a family app that turns household chores into earning opportunities for kids. Parents assign tasks, kids complete them, and real money goes into their in-app wallet — teaching children that money is earned, not given. With built-in savings goals, a spend-save-give wallet, and a streaks and badges system, Zuppy makes financial responsibility genuinely fun for kids aged 4 to 16.
